

## Grant Read permission to .LRN XoWiki

1. Go to WCAEC webiste community

[http://wcaec.net/dotlrn/clubs/wcaec/one-community?page\\_num=0](http://wcaec.net/dotlrn/clubs/wcaec/one-community?page_num=0)

The screenshot shows the WCAEC community page on dotLRN. The page has a navigation bar at the top with links like Home, Classes, Communities, Control Panel, Administration, and WCAEC. The main content area is divided into several sections: Forums (No Forums), Frequently Asked Questions (FAQs) (No FAQs), News (Unsubscribe, Syndication Feed), and Community Info (Watts Clean Air Energy Committee). On the right side, there are sections for Subgroups (No Subgroups), Schedule (Items from February 08, 2019 to March 10, 2019), and a Calendar for Friday February 08, 2019.

2. Go to Site Map (the link is available in the acs-developer top navigation bar)

The screenshot shows the top navigation bar of the dotLRN system. It contains links like 214 ms, Shell, APM, Site Map, Changed, Flush, Test, Users, Classes, Communities, Users, Admin, and Hide Xtra Info. Below the navigation bar, there is a line of text: my user\_id: 7164 context\_id: 42685 community\_id: 42586 portal\_id: 42590.

3. Find .LRN node item and click on “+” to expand the menu

The screenshot shows the dotLRN logo. The logo consists of a plus sign in a circle followed by the text 'dotlrn' and 'dotLRN'.

4. One of the sub-nodes is called “Clubs”, click on “+” to expand the node

**Notes:**

Privileges higher in the hierarchy imply all the privileges below, e.g. when you grant admin, then read, write etc. are implied automatically.  
When you leave a checkbox empty here then that privilege will be revoked from the party you choose in case it has been granted to that party before.

9. Next, you can test if the link is now opened to the public, so go there without being logged in.

### Index Page

This is the default start page of Xowiki. You can edit this page and save it to provide a personalized look of the Xowiki instance. You can as well provide a different index page through configuration. You can also view the contents of the Wiki in a [weblog](#) style. For more details, consult the [Xowiki documentation](#).

A user can define [notifications](#) for the whole Xowiki instance (by clicking on the notifications button in the menu bar or for categories (by clicking on the letter symbol next to the category entries at the bottom of the page))
